

Vessel Name: *MV Boomerang II*

Description

MV Boomerang II is a 65 ft. steel cruiser built in 1974 in Mackay, cruises at a comfortable 8.5 knots with a range of 1500 miles. The main engine is a 6 cylinder Gardner diesel with two auxiliary engines and a 1 ton snap freezer for your catch.

All sleeping quarters are air-conditioned and we have 3 toilets and 2 hot and cold showers, great to freshen up after a days fishing. The main saloon seats 10 persons in comfort, as does the top barbecue deck. Fresh fish can be on the menu as much as you like. You can "pig out" on mud crabs washed down by ice cold beer at the end of the day.

The dinghies are all aluminium - one being 4.35 metres with 30 HP Yamaha outboard, plus 3 x 3.5 metres with 6 HP Yamaha outboards.
