

Vessel Name: *Into the Backing*

Description

Into the Backing is a 5 metre purpose built flats style skiff by Cairns Custom Craft, and is surveyed for 3+1 in 2D survey.

A huge front casting platform can stow all the tackle as well as keep everything off the deck dry and safe.

Fly rod storage is not a problem as 4 fully rigged fly rods can be stowed individually and securely under the gunnels.

Owner/operator, Russell Rowse, is a full time resident of Weipa and a fly fishing exponent second to none.
